## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2175

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims, 1, 4-13 and 15-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1 and 13: Claims 1 and 13 have been amended to recite a step of determining by a remote server computer that at least one of the diagnosis and treatment code correspond or do not correspond to certain known health care services. This language suggests that the remote server computer may analyze only one of the two codes, and not both codes. This amendment thus raises the issue of new matter because the original disclosure requires that the remote server computer analyze both codes, and not just one of the codes (see page 19, lines 19-22 of applicant's original specification). The amendments to the claims which raise this issue occur at claim 1, line 13, and claim 13, line 16.

Claims 4-12 and 14-17: Claims 4-12 and 14-17 depend from claims 1 and 13.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 4-13 and 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2175

Claims 1 and 13: Claims 1 and 13 allow for the remote server system to determine that one of the diagnosis and treatment codes are not approved and then have the client correct one of the diagnosis and treatment codes. This language is indefinite because it is not clear if the client is correcting one of the approved codes or one of the non-approved codes. The claim allows for the client to correct either one.

Claim 4: Claim 4, as amended calls for the client to receive one of the revised diagnosis and treatment codes and then incorporate one of the revised diagnosis and treatment codes. This language is indefinite because it is not clear whether the client is incorporating the code which specifically indicated as needing revision, or a code not needing revision. The claim allows for the client to incorporate either one.

Claims 5-12 and 15-17: Claims 5-12 and 15-17 depend from claims 1 and 13.

Claims 24-35 are allowable over the prior art of record.

#### Remarks

Applicant's amendments and remarks have been considered.

The amendments submitted herein do not conform to the examiner's suggestions as described in the previous office action of October 20, 2003 and raise the issues of new matter and indefiniteness under 35 USC 112.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2175

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication should be directed to Sam Rimell at telephone number (703) 306-5626.
